

Naropa UNIVERSITY

SCHOOL OF EXTENDED STUDIES

July 5, 2004

Dear Greg,

With great pleasure and confidence, I am writing to encourage you to consider Tama Kieves as a future workshop presenter at Omega. As one of our most popular teachers with consistent rave evaluations from participants, Tama is now enjoying a growing, well-deserved national following. This is due to a combination of hard work, a grand intelligent vision, an inspiring story, her natural ability to lead groups, and a winning and beautiful personality. These and other attributes blend together, motivating those interested in enhancing their lives to follow their dreams, while turning them into lucrative pleasures.

Because of my own unique experience on Summer Staff at Omega, my many years creating programs in Boulder, CO, and my extensive experience creating the Extended Studies Program at Naropa University, I am comfortable recommending Tama, knowing that she would be a wonderful addition to Omega's program.

Tama's book, THIS TIME I DANCE! Trusting the Journey of Creating the Work You Love/ How One Harvard Lawyer Left It All to Have It All (Tarcher/Penguin), along with her beautiful multi-dimensional website: www.AwakeningArtistry.com, well describe Tama's journey. Her work as a life/work coach includes the presentation of many transforming workshops across the country. We, at Naropa, are aware of the changes Tama's students have encountered and the excitement they are embracing as a result of their interaction with Tama.

If you have further questions or comments, please feel free to call me at 303-245-4810.

Hope the summer at Omega is as wonderful as ever. (I still long for my daily walks around the lake).

Warm wishes,

Laney Wax
