Dear Colleague:

Over the many decades we have been hosting guest speakers there are a few that truly stand out from the rest. A shining example is Tama Kieves.

Tama is a fresh face to New Thought churches and I'm glad we followed the recommendation of another minister and brought her to our church. I could compare her to some on the top list of the nation's leading speakers but she truly is distinct even from them. Her connection with our congregation was dynamic, authentic, and disarming. There was a spiritual accessibility about her that captivated everyone. She is funny, upbeat, and has a great story that helped everyone feel better about their own spiritual path. She was particularly gifted in helping us to honor, celebrate and usher in an important change during a historically significant day for our congregation and church. It was masterful, grace-filled and just what was needed.

Her afternoon workshop was completely full and we sold out of all her products. This woman has a gift and we're looking forward to bringing her back. I encourage you to get her on your calendar as soon as you can!

Rev. Michael Ingersoll  
Center for Spiritual Living Seattle
